ABOUT thePROGRAM

The Pre-Professional Program at eXit SPACE offers dancers 8-18 years of age a scaffolded curriculum designed to support their artistic goals – whether those be pursuing undergraduate-level dance, a professional career in concert or commercial dance, or passion for dance at their highest capacity regardless of long term pursuits. Students admitted to thePROGRAM are placed in one of four companies based on age and ability, each with its own set of required core classes, electives, and rehearsal blocks facilitated by working professional artists. Those companies from most beginner to advanced are Cadets, Squad, Juniors, and Seniors.

PHILOSOPHY

We believe in student potential and progress over perfection, the benefits of exploration over expectation, and the value of all body types and backgrounds in the dance industry. thePROGRAM faculty emphasize four pillars of dance education: physical prowess, expression, passion, and community, so dancers can expect to be both challenged and nurtured in their dance education at eXit SPACE.
